

# 3700 Series

The **3700 Series** is distinguished by its discreet design and functionality.

With a wide range of functions (40 functions), it is the practical option for the professional or institutional environments such as offices, schools and services, where is required functionality and versatility.

Made in the White colour - RAL 9003 – it can also be applied together with the 10 Series of Cable-trunkings for electrical installations and telecommunications and in surface mounting electrical installations.
